This however, is not a good map. It's nice that it is laminated and folds wells, but It is WAY too small, and it doesn't cover most roads except major highways. I'm not talking about missing the small local roads either. A large parkway by my house was completely left off. It's completely unusable. Unless you are driving across Virginia using only major roads it won't help you, and if you are doing that you don't really need a map anyway. Woe to you if you need it because there is a traffic jam and you need to get off the Interstate at the next exit and find a way around because many roads that connect to the major highways aren't shown either!0 of 0 people found the following review helpful. Terrific portable map...By HMS WarspiteThis Rand McNally Virginia state map is a folding, plastic-coated map designed to be portable and to stand up to regular use. One side has the eastern two thirds of Virginia at a scale of one inch to 18.8 miles, along with inset maps of Charlottesville, Harrisonburg and Bristol. The other side has western Virginia and inset maps of the Hampton Roads area, Williamsburg, Lynchburg, Richmond, Roanoke, and Washington DC. The color presentation has enough detail to navigate the state on the major roads. Close-in navigation will require a more detailed map, and bring your reading glasses. Recommended for getting around the state by the main arteries.0 of 0 people found the following review helpful. OK-not greatBy GaryOk. Waterproof, which is good, but smaller than I thought it would be
