Also I have never been able to read the dvd that comes with the book. Inquiries with the publisher to get a readable format have been less than positive. 0 of 0 people found the following review helpful. Useful if you are doing a French course simultaneously. By OSE This is a good resource but my caveat to this comment is that it is probably best if you are studying French in some way at the time of using it. Without doing a French class concurrently I suspect I'd find this a little more difficult to navigate. The exercises are clear and helpful, and it's not overwhelming providing you take your time as you go. 0 of 0 people found the following review helpful. Three Stars By Meridaok
