Reflects his times but still offers food for thoughtBy silversidesThis collection of quotes from other people was chosen by Elbert Hubbard and used in his 'talks' and writings. Although the sources come from many centuries of thought, they were chosen by a man who was a part of his age. For example

Maeterlink is quoted five times, a choice not so expected these days, Robert Ingersoll ten times. Entries are well indexed by author and by topic but their arrangement in the book seems to be based on whenever Hubbard discovered them, in other words they seem randomly arranged. A fan of Hubbard or of turn of the last centuries culture will be charmed by them, as by the typeface and layout in this almost-facsimile publication. My eyes have a bit of trouble with all the serifs but they are part of the grace of those times. Since I can't afford a true facsimile with stamped leather binding, I will cherish this paperback for a long time.0 of 0 people found the following review helpful. Two StarsBy cynthia rigbyHad quotes from everyone else he used for inspiration but almost nothing from Hubbard.2 of 2 people found the following review helpful. A hidden treasureBy Judy BlakeElbert Hubbard collected and arranged an eclectic collection of opinions and comments on the widest range of people and emotions, and I have really enjoyed reading this material in a 21st century context.

A vast collection of more than seven hundred quotations meant to inspire genius, this scrapbook contains favored sayings of the late-nineteenth- and early-twentieth-century essayist Elbert Hubbard.

From the PublisherKessinger Publishing reprints over 1,500 similar titles all available through .com.From the Back CoverA vast collection of more than seven hundred quotations meant to inspire genius, this scrapbook contains favored sayings of the late-nineteenth- and early-twentieth-century essayist Elbert Hubbard. Here the words of history's and literature's greats from William Shakespeare, Benjamin Franklin, Marcus Aurelius, Charlotte Bront, and Dante to Charles Dickens, Thomas Jefferson, Pythagoras, and Oscar Wilde meet. Originally published posthumously as a tribute to Hubbard, this compilation includes the musings of George Washington on jealousy, Mary Wollstonecraft Shelley on love, Plato on man, and hundreds of others. The universe's most momentous questions about life and success, as well as love, humanity, nature, and war, unfold in memorable passages. Indexes by author, topic, and poem serve for easy reference.About the AuthorHubbard spent much of his life carefully collecting quotes and passages of significance from history and literature. As he gathered these selections, he added them to his scrap book for his own personal inspiration. Yet, he never once conceived of the idea to publish what had served as spiritual nourishment for his own refreshment and pleasure.
