Marilyn Shepherd : ELECTRICAL COMPREHENSION TESTS: 100s of sample test questions and detailed answers for passing the electrical comprehension tests. (Testing Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised ELECTRICAL COMPREHENSION TESTS: 100s of sample test questions and detailed answers for passing the electrical comprehension tests. (Testing Series):

0 of 0 people found the following review helpful. A good place to startBy Matthew S.I purchased this test book in preparation for an electricians competency test for employment. The test helped my learn my strong and weak points, but I found a few errors in the material itself. Some answers were incorrect, some questions vague, and some material too complicated for the basis of the test. It will help you learn your strengths and weakness in certain subjects but will not "teach" you any information. Maybe a good place to start, but you will not learn any new material if you don't already know it.
