Best Quenya-English dictionary availableBy Roy M. SchoenherrTogether with the Sindarin-English dictionary (Elvish Dictionary Sindarin-English English-Sindarin) this makes an excellent reference book for the elvish languages of Middle-Earth. It does help with translating some of the texts provided by Tolkien in the LOTR (and elsewhere), and can give give some help in trying to write ones own little poem or such. It is by its nature not extensive enough to allow one to write large/long texts in elvish, in part of course simply because it does not provide any grammar rules to allow one to compose full sentences.I do recommend to get the Elvish Verb Chart (Elvish Verb Chart - Quenya) along with this, which will help to write ones own little Quenya poems and sentences.
