Christian Callec : Enciclopedia del vino (Grandes obras series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Enciclopedia del vino (Grandes obras series):

Educational, entertaining, and stimulating to the senses, these authoritative and handsome encyclopedias present each of their subjects in rich detail. Packed with information, photographs, and illustrations, each book is organized around helpful themes. This photographic reference of vineyards, wine cellars, wines, wine bottles, and wine labels from around the world describes the various grapes, history, origin, and manufacturing of wines from the exotic tastes of the Middle East to the bold newcomers from California.

About the Author Christian Callec was a curator for the Holland Wine Museum. He is the author of *Wine: A Comprehensive Look at the World's Best Wines*.
