Valerie Zimbaro : Encyclopedia of Apocalyptic Literature (ABC-CLIO Literary Companion) before purchasing it in order to gage whether or not it would be worth my time, and all praised Encyclopedia of Apocalyptic Literature (ABC-CLIO Literary Companion):

2 of 2 people found the following review helpful. Amazing Resource TextBy Evelyn FinkleaThe Encyclopedia of Apocalyptic Literature is a wonderful resources for any college student, and to my way of thinking a must for all college libraries. As the title suggests, it is an "encyclopedia" of apocalyptic literature; thus, the types of literature involving apocalyptic themes are included and examined. What is most unique in this text is the index to myths, legends, and scripture. The term "apocalyptic literature," according to many encyclopedias and millennial literature resources, reference the word's Greek origin "apokalypsis" which literally means "unveiling," "uncovering" or "revealing." Apocalyptic literature often uses myth, vision, dreams, symbols, as well as references to prophetic Judeo-Christian prophesy and canonical literature to reveal the final judgment of a character or a society.I recommend this book because it deals with common themes found in apocalyptic literature of many cultures. It is a wonderful resource with a comprehensive introduction to the four distinct categories of "apocalyptic literature," and it is absolutely rife with wonderful illustrations; it is both a visual and intellectual feast.0 of 0 people found the following review helpful. Fablous Recource!By AlliAs a Graduate student I have found this book invaluable in my studies, and I have

recommended it to fellow graduate students at USF.4 of 5 people found the following review helpful. Don't botherBy R. CarthyIt's obvious from the author's capsule reviews of Vonnegut's 'Cat's Cradle' and CS Lewis' Ransom trilogy that she hasn't read the books. And those are just 2 books I know well and happened to read her articles on first - I gave up after that, deciding that there was no way of believing anything else she said without reading the original sources. Which makes buying the encyclopedia pointless....

Spanning 21 centuries, from the prophecies of the Greco-Roman era to the novels of the present day, this volume offers readers both a detailed chronicle and a broad understanding of our fascination with our final days.

"Recommended." - The Book Report"a useful place to start in the study of end-of-the world literature and should serve this need well in high school and academic libraries." - American Reference Books AnnualAbout the AuthorValerie ZimbaroValerie P. Zimbaro has a doctorate in higher education and a master's degree in English literature. She is a communications professor at St. Petersburg Junior College in St. Petersburg, Florida.
