Christopher Brickell : Encyclopedia of Gardening before purchasing it in order to gage whether or not it would be worth my time, and all praised Encyclopedia of Gardening:

0 of 0 people found the following review helpful. Best Book on gardeningBy Jose RojasExcelent Book, comprehensive and detailed. It has everything you need to know to start and keep your garden and plants in shape.0 of 0 people found the following review helpful. Five StarsBy Destiny_desigNExcellent source. Great occasion book.2 of 2 people found the following review helpful. Excellent resourceBy Leon FollmerIt is a good source of information on how to propagate and care for most plants. It explains things in common language and goes into detail where it is useful.

Update to include new techniques and to reflect current trends such as the growing popularity of green roofs and crevice gardening the Encyclopedia of Gardening guides readers expertly through the latest gardening techniques, details information on garden planning and design, covers useful tools and materials, and features an extensive

glossary of plants, including trees, shrubs, and perennials. Written by experts and including an expanded section on how to grow fruit and vegetables in containers, the Encyclopedia of Gardening is the world's finest and most authoritative source of horticultural advice.
