**Eileen Moore Trauth (Editor) : Encyclopedia of Gender And Information Technology (2 Volume Set)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Encyclopedia of Gender And Information Technology (2 Volume Set):

The Encyclopedia of Gender and Information Technology is the only reference work that provides an all-encompassing perspective on the way gender and information technology impact each other. Hundreds of leading international experts have compiled their research about the role of gender in human interaction with IT and the IT profession. Special attention is paid to the contributions, challenges, issues, and experiences of women in the IT field.

This innovative encyclopedia contains more than 1,450 key terms and their definitions, supplying readers with the most complete understanding of the subject. These two volumes include 213 entries with over 4,700 references to additional works on gender and information technology in order to stimulate further research. The Encyclopedia of Gender and Information Technology is a must-have publication for every library.

"This two-volume reference is a must-have resource for academics, practitioners, and policy makers alike." --Prof. Jeria Quesenberry, Pennsylvania State University, USA  
About the Author  
Eileen M. Trauth, Ph.D. is Professor of Information Sciences and Technology and Director of the Center for the Information Society at Pennsylvania State University, USA. Her research is concerned with societal, cultural and organizational influences on information technology and the information technology professions. She has published papers and books on qualitative research methods, global informatics, information policy, information management and information systems skills. She has published eight books and over 100 research papers on her work. She has taught and conducted research in Australia, Canada, France, Ireland, The Netherlands, New Zealand, and the UK. Dr. Trauth is Associate Editor of Information and Organization and serves on the editorial boards of several international journals. Dr. Trauth received her Ph.D. and Masters degrees in information science from the University of Pittsburgh, USA and her Bachelors degree in Education from the University of Dayton, USA. She is a member of the Association for Computing Machinery, the Association for Information Systems, the Information Resources Management Association, the International Federation for Information Processing, and the Fulbright Association.
